1 Year On

**Stop the Genocide in Gaza!
Permanent Ceasefire Now!
Stop all arms sales to Israel!**

For the past year, Israeli Defence Forces have led air and ground assaults on the Gaza Strip in Palestine. At least 42,000 civilians have been killed including 20,000 children, with five times that number seriously injured. Hospitals and schools have been demolished with at least half of all buildings completely destroyed. 750,000 are starving.

Genocide

This indiscriminate killing continues every day. The International Court of Justice has ruled that Gaza risks irreparable damage and Palestinians there have "plausible rights to protection from genocide". The Prime Minister of Israel has an international arrest warrant out against him to face charges of crimes against humanity.

Gaza is a strip of land 24 miles long and 7 miles wide, where 2.3 million civilians have been besieged for years by Israel, living as a refugee colony reliant on outside aid, movement controlled by the military and racist Israeli State.

Join Us!

Millions of people in Britain and across the world have protested against this injustice. Students everywhere have held meetings and occupations on University campuses to stop all investments in Israel's economy. In the UK we are demanding that all arms sales Israel are halted, with a boycott of all Israeli goods. **Please join the Palestine Solidarity Student Society and help us Free Palestine!**

**Student Protest for Palestine
Saturday 21st September**

Jigsaw Garden PL1 1QH 12 midday
(opposite Roland Levinsky Building next to Drake Circus car park)

Bring flags and banners and friends and noise!
