

GAZA - Stop the Lies: This is Genocide!

The UK is Complicit

Israel stands accused of a series of acts amounting to genocide against 2 million human beings in Gaza.

Francesca Albanese, UN Special Rapporteur on human rights stated in March 2024 "The overwhelming nature and scale of Israel's assault on Gaza and the destructive conditions of life it has inflicted reveal an intent to physically destroy Palestinians as a group."

The United Nations World Food Programme (WFP) has stated that the north of Gaza is now in the grips of a full-blown famine which the Israeli State has orchestrated. Famine is joined by infection and disease, including polio.

Systematic aerial and ground attacks are also now happening in Palestine's West Bank, particularly targeting refugee camps. As in Gaza, bulldozers are destroying critical infrastructure, including roads, sewage, water and energy systems.

More than 42,000 bodies (17,000 of them children) offer proof of the widespread genocide by the Israeli Defence Force. Tens of thousands more are buried under the rubble. Most of Gaza is now bombed to rubble. Since Oct 2023, Israel has been forcing Palestinians in Gaza to flee from place to place without offering them genuine assurances of safety, proper accommodation, medical aid, food or water.

The International Court of Justice (ICJ) ruling in July 2024 declared Israel's occupation of Palestinian land in the West Bank, Gaza and East Jerusalem as unlawful, and its discriminatory laws and policies against Palestinians violate the prohibition on racial segregation and apartheid. The ICJ demands that Israel withdraw immediately, dismantle settlements and pay reparations to the Palestinian people.
