

12,000 Palestinian children dead amongst 37,000 civilians killed by Israeli Defence Forces - targeted by drones, bombed, shot, crushed by tanks, burnt by white phosphorous - funded and supplied in part by the UK. 2 million Palestinians now at imminent risk of forced starvation.

Stop All UK Arms to Israel!

The UK government continues to approve arms sales to Israel in clear defiance of its own export guidelines. These guidelines are supposed to prevent arms sales if...

 there is a clear risk of arms use for internal repression. Israel is currently under investigation by the International Court of Justice on the charge of committing genocide;

 there is a clear risk that the weapons might be involved in a serious violation of international humanitarian law;

 the arms exports would provoke or prolong armed conflicts or aggravate existing tensions or conflicts in the country of final destination;

 there is a risk that the intended recipient would use the weapons aggressively against another country, or to assert by force a territorial claim.

All these statements apply to what Israel has done to Palestinian lands over the past 6 months and ever since 1948. These actions and violations are at the core of Israel's military occupation regime, including their destruction of Gaza and brutal repression in the West Bank. For the UK Government's own export guidelines to be legally upheld they must stop all arms exports to Israel. NOW!

Four things you can do to help stop the genocide:
